DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 6, 2009 has been entered. Claims 1-42 and 65-68 are pending. Applicant cancelled claims 43-64.

Claim Rejections - 35 USC § 103

2. Claims 1-42 and 65-68 are rejected under 35 U.S.C. 103(a) as being unpatentable over Carrott, 6,782,369 in view of Ghosh, 2001/0032094 and further in view of Wheeler et al., US 7,200,749.

Carrott discloses, e.g. Figs. 1-5 and related text, a computer program for allocating sales commissions comprising processing sales transaction data, capturing transaction data and determining. Carrott does not disclose determining if sales representative associated with the transaction has a valid license to sell products associated with a sales transaction.

Ghosh discloses sales representative associated with the transaction has a valid license to sell products associated with a sales transaction.

Wheeler discloses electronic communications for an electronic contract. The contract of Wheeler is disclosed as being valid, .e.g. col. 2, lines 23-59.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to incorporate the teachings of Carrott with those of Ghosh to provide licensed sales representatives. The motivation for having done such would have been to use common knowledge to ensure proper compliance with regulatory schemes. Further, it would have been obvious to one having ordinary skill in the art at the time the invention was made to incorporate the teachings of Carrott with those of Ghosh and Wheeler to provide licensed sales representatives having valid licenses to sell the product associated therewith.

Applicant's February 6, 2009 REMARKS with respect to claims 1-42 have been considered but are moot in view of the new grounds of rejection.

It is noted that Applicant has basically taken the common knowledge scheme where the business activity used by distributors of products, e.g. financial instruments, whose contracts are dictated by the rules of well known common contract law has been translated to an electronic format. This is not deemed novel nor unobvious.
